Why Work With Me?

I blend technical expertise with creativity to deliver web solutions that exceed expectations. Let's build something amazing together! 🚀

Professional Summary

Highly skilled UI/Front-end Developer with over 6.5 years of experience in developing dynamic and interactive web applications. Proficient in JavaScript, Angular, React.js, Node.js, and other modern web technologies. Strong expertise in GUI design, web application development, and implementing responsive designs. Adept at working in fast-paced, agile environments, with a strong focus on usability and performance.

Technical Skills

Languages & Frameworks: JavaScript, TypeScript, Angular (2+), React.js, Node.js, HTML5, CSS3, SASS, LESS, Bootstrap, JQuery, AJAX

Tools & Platforms: Git, SVN, Webpack, Grunt, Gulp, NPM, Bower, Visual Studio, Eclipse, Sublime Text, Adobe Photoshop

Libraries: Redux, Flux, Backbone.js, Express.js, Polymer, AG-Grid, Highcharts

Concepts: MVC Architecture, Single Page Applications, Responsive Web Design, Object-Oriented Programming, RESTful Web Services

Testing & Debugging: JIRA, Chrome DevTools

Database: MySQL, MongoDB, Oracle

Professional Experience

Apple, Sunnyvale, CA
Sr. Front-End Engineer
July 2022 – Present
- Developed internal applications with Angular 12 & 15 for limited user access.
- Created a dashboard to display Apple Products Supply Chain.
- Worked with third-party libraries like AG-Grids and Highcharts.
- Coordinated with offshore teams to meet project requirements and deadlines.
- Implemented Angular Router Module for SPA, enhancing application performance with reusable Angular 10 components.

Environment: HTML5, CSS3, TypeScript, Angular (9-15), Node.js, Redux, ReactJS, Bootstrap, JavaScript, JQuery, SASS, AJAX, XML, Gulp

Kaiser Permanente, Pleasanton, CA
Sr. UI/Web Developer
Jan 2021 – June 2022
- Enhanced application performance using Angular 5 component-based development.
- Developed custom reusable Angular 10 components.
- Built responsive web applications with Angular 9/8, leveraging Ng-Modules, components, and ng-router.
- Created TypeScript reusable components and services to consume REST APIs.
- Utilized JIRA for bug tracking and WebSphere for deployment.

Environment: HTML5, CSS3, TypeScript, Angular (8-10), Node.js, Redux, ReactJS, Bootstrap, JavaScript, JQuery, SASS, AJAX, XML, Gulp

CooperVision, West Henrietta, NY
Sr. UI/Web Developer
May 2020 – Oct 2020
- Designed and developed responsive admin portal using Bootstrap.
- Developed custom reusable Angular 9.0 components with internationalization.
- Produced microservices API using Express.js built on Node.js.
- Utilized primeNG components for various UI elements.

Environment: HTML5, CSS3, TypeScript, Angular 9, Node.js, Bootstrap, JavaScript, JQuery, SASS, AJAX, XML, Gulp

American Express, Phoenix, AZ (Remote)
Sr. UI/Web Developer
May 2019 – May 2020
- Migrated application from Polymer 1 to Polymer 3 using lit elements and TypeScript.
- Created an employee hierarchy component using Polymer 3.
- Developed Angular directives, services, and controllers for SPA.
- Participated in fast-paced Agile development, attending daily stand-ups and sprint planning.

Environment: HTML5, CSS3, TypeScript, Polymer (1 & 3), Node.js, Redux, ReactJS, Bootstrap, JavaScript, JQuery, AJAX, XML, Gulp

Accenture, Austin, TX
Front End UI/Web Developer
Feb 2017 – Jul 2018
- Enhanced legacy application with Angular 2 and TypeScript.
- Developed REST API modules using Node.js.
- Created responsive designs using HTML5, CSS3, and JQuery.
- Implemented client-side interface with React.js and created reusable services.

Environment: HTML5, CSS3, TypeScript, Angular 2, JavaScript, Angular.js, Node.js, JQuery, Bootstrap, JSON, AJAX, Git

Zippr, Hyderabad
Java UI/Web Developer
Feb 2014 – May 2015
- Developed application architecture based on MVC design pattern.
- Built views for JSP pages using AJAX.
- Utilized Hibernate for data access layer.
- Created short URLs using Ionic framework and SASS.

Environment: HTML5, CSS3, JavaScript, React.js, Node.js, Angular.js, JQuery, Bootstrap, AJAX, Git

Education

Bachelors in Computer Science Engineering
Guru Nanak Institutions - JNTUH, India

Masters in Computer Science
Northwestern Polytechnic University, Fremont, California

Ph.D. in Information Technology
University of the Cumberlands, KY, USA.

Awards
- Kaiser Permanente Impact Award

Projects
Highlight any notable projects that demonstrate your skills and experience.
Notable Projects:
- Cheetah - AI Job Search Bot:
  - Developed an AI bot using React.js to answer job openings in the USA in real-time.
  - Integrated Adzuna API for job search data.
  - Successfully deployed the application using GitHub Pages.

Certifications
- Microsoft Certified Professional
- Microsoft Technology Associate
